EDUCATION

Polish-Japanese Academy of Information Technology

Oct. 2020 – Sep. 2024

Bachelor of Science in Computer Science

Warsaw, Poland

- **Overall GPA:** 4.3/5.0
- **Relevant Courses:** Algorithms & Data Structures, Relational Databases, Network Programming

EXPERIENCE

Billz

Jan 2026 – Present

Sr. Frontend Developer (JavaScript/TypeScript, React JS)

- Building features across modules of a retail management platform.
- Contributing to the internal design system, reducing duplication across product surfaces.

Pinterest Inc.

May 2023 – May 2025

Sr. Software Engineer (JavaScript/TypeScript, React JS)

- Worked on Gestalt design system: component development and maintenance.
- Added and standardized animation elements of Gestalt design system.
- Improved accessibility and UX of Pinterest web application by rehauling several key components.
- Added RTL support and resolved a critical bug in the video player of Pinterest mobile web application.
- Introduced isolated stacking context approach for better overlay component behavior and DX.
- Provided valuable on-call support to internal engineers, strengthening team problem-solving.

Super Dispatch Inc

Sept. 2019 – Feb. 2023

Sr. Frontend Developer (JavaScript/TypeScript, React JS)

- Implemented the frontend of the rating system including rating notifications and rating responses.
- Optimized WebSocket connections significantly in ReactJS applications using Shared Workers.
- Reduced the crash rate by 30% by fixing the asset loading issue in React JS applications.
- Integrated 3rd-party payment system with optimistic UI patterns to solve synchronization delay issues.

PROJECTS

Canvas Native [🔗](#)

- Reimplements the HTML5 Canvas API in native C++ for Bun and Deno, enabling desktop applications.
- Required reading the Canvas spec carefully and bridging a C++ implementation into a JavaScript API surface.

tgui.js [🔗](#)

- Deno-based desktop UI development toolkit with a C++ core.
- Compiles to a single executable.

Transliterator [🔗](#)

- Fully client-side transliterator for Uzbek words. File converter supports all formats of MS Office files.
- 3K monthly active users. Open-source project, and the backend is self-hosted.
